### THIS WEEK

Speaker: Dr. Jim Skalicky  
Topic: Psychoanalysis of Covina Rotarians  
Program chairman: Lina Ledford

Dr. Shalicky is a clinical psychologist with an office in Covina, a psychotherapist at CPC Hospital, Pomona, and a professor at Citrus College. He earned his bachelor and master degrees at Loyola University in Los Angeles, and his Ph.D. from Kansas State University. His workshop titles are fascinating: Violence in the Workplace; Happiness, the Inner Journey; Relationships that Work; Let Us Reason Together. Wonder if the good doctor has time to schedule a class or two in Washington, D.C., for our legislators?

### NEXT WEEK

Dr Bill Tang will bring his DaVinci robot to our meeting to demonstrate how he performs delicate surgeries on various body parts. Can we get a volunteer patient or two?

### LAST WEEK

The 'High blue yonder' was well represented by our speaker John Nemzek. Riding in the back seat of an F-18 Super Hornet would be worth a left ---, at least, to pilots, right, Sigona? Thanks, Andy, for the speaker suggestion.
