 Covina Rotary Club - District 5300 - Chartered March 8, 1923

September 20<sup>th</sup>, 2012 Issue #11 Editor: Tricia Vagt

Pavel Bindra, MD,  
 Chief Medical Officer/Chief Medical Information  
 Officer Citrus Valley Health Partners

**Paveljit Bindra, MD, MBA**

As the Chief Medical Officer and Chief Information Officer at Citrus Valley Health Partners, Dr. Pavel Bindra fulfills his drive and commitment to the equitable delivery of health care and to ensuring health care access for patients.

As both the medical officer and information officer for CVHP, Dr. Bindra is responsible for improving the quality of clinical care delivered to every patient within CVHP hospitals. In just one year, he has led several initiatives to improve quality and patient care. Some of these initiatives include reducing unnecessary blood utilization, , improving throughput in the Intensive Care Units, helping the hospitals achieve benchmarks in quality of care, streamlining processes to reduce waste and, most recently, leading an initiative that will address a patient's continuum of care through disease process management.

**Teen Leadership Camp**

This year's Teen Leadership Camp for eighth graders residing in our district will be held in Irvine from November 2nd to 4th. The District needs 18 Rotarians to volunteer as camp facilitators. Together with one RYLA graduate, each facilitator will be responsible for a group of 10 kids for the weekend. There will be great speakers, sessions on ethics and other relevant topics and a Rotary Olympics where groups will compete in ridiculously funny games. It is a weekend full of emotion and the joy of watching growth in the young people who attend.
