This Week: Find Your Family Roots

Glendora Genealogical Group's President Pat Chavarria will tell us all about ancestry research & genealogy. Pat's interest in ancestry and family research began from a personal discovery of her birth mother and siblings. She has traced various branches of her family trees (both birth and adoptive) as well as her husband's, all that way back to 1390! She also has "roots" in Covina, as she had worked for more than 18 years at the Covina Valley Unified School District before her well-deserved retirement. She will bring lots of information and resources for us to start our own family history research.

This is a great opportunity to BRING YOUR SPOUSE or SPECIAL GUEST!

Last Week

In 1989, a group of parents and professionals put their time and talents together to establish a family center, family-driven for families with children with special needs. This resource center gives parents a safe place to receive valuation information on their child's development and particular disability, and to find the community resources they need.
