

Thought for the week "Individuals and nations owe it to themselves and the world to become informed."
Paul Harris

This Week: John Tanner, Ph.D.

John Tanner will be giving a talk on healthy eating. He comes at it from a very scientific perspective so it should be interesting. He had a heart attack at a fairly early age and had to learn how to make big changes in his diet, so the story is also interesting.

John's company, Tanner Research was named to the impressive Deloitte & Touche "Los Angeles Technology Fast 50" list, a ranking of the 50 fastest-growing high-technology companies in the area. Tanner Research, Inc., a leading microelectronic technology company was named to the list in recognition of its outstanding growth over the past five years. Tanner Research, Inc. designs custom integrated circuits (ICs) and supplies IC design software and services worldwide. The company has made the "Fast 50" list for three years in a row.

Last Week: Chaplain Alvin Aguilar, MTh, BCC

Chaplain started the meeting with a little presentation on how he actually delivers a flag to the loved ones at the funeral. It was very surreal and emotional. With the budget cut (of course due to excess spending by our government), unless you gave a minimal 20 yrs of military service, you would not get a full honor military funeral service.

That's why our government needs people like Alvin to fill in the void and performing funeral services to all fallen soldier whether it's just one day on the job. He is great patriot and he loves what he's doing because he believes all soldiers deserve a full military funeral services, even at his own time and expenses.

A true labor of love of God and Country.

Next Week: Jon Teran, Covina Rotary President.

This Club Assembly Meeting is the annual meeting dedicated to the discussion of our President's plans for the Rotary year .

Calendar of Events and important Dates
