This week: **MARCIA TOLENTINO**

Turning homes into Smart Homes

Marcia Tolentino, Realtor, is the Sr. Program Manager for Build It Green, a non-profit organization that advocates for energy efficient and sustainable homes. Through her efforts, over 1300 Real Estate professionals have gone through Green Real Estate training and 1000+

Realtors have earned the N.A.R. Green Designation certification which resulted in earning the National Association of Realtors prestigious award of 2014's Green Training Provider of the Year.

Last Saturday in Rotary's District 5300:

PEACE CONFERENCE

Although our annual Peace Conference was a huge success, world peace has not yet been attained. Let's hope 2017 will get us closer to the mark.

Rotarians in need:

September 2016, Rotarian Steve Mathis and his wife Sue put out a plea for Rotarians to help cork bottles of Pinot Noir and find good homes for them so they would not go to waste. Some Rotarians rose to the occasion by offering homes to cases of wine. Others (Jon & Beth Teran, Sue & Terry Wysocki, and Shirley Harrison with John Creamer) traveled to Nipomo to help our favorite wine makers with the wine corking. It was definitely a win-win proposition.

This weekend: Covina Rotary loves Thunderfest

- 10/21-23 International Project in Tijuana.

The sad loss of one of our own:

On October 1st, one of our long-time Covina Rotarians passed away after suffering a heart attack. It is unfortunate that our newer members did not get to know him or his wife Patricia better. He was an incredible human being and made the world a much better place.

Farewell Charley Kraal. We will deeply miss you while holding you in our hearts forever more.
