

November 17, 2016 Issue #19 Editor: Shungry

**THIS WEEK: TONY NEVAREZ.....  
ELECTRIFYING COVINA ROTARY**

Tony Nevarez (pictured above) is our featured speaker this week and he will be sharing how he magically transformed a little international project into our new, stupendous program **HELPING FAMILIES BEYOND BORDERS!** Though the children that Covina Rotary helped in Tijuana are now wearing new clothes, Tony and his miraculous team are not done helping the children's families. Tony definitely has more tricks up his sleeve and he invites everyone to accompany him on future international adventures.

**COMING IN DECEMBER:**

- 12/2-4 TLC (Teen Leadership Camp)
- 12/10 Covina Cares, Christmas Style
- 12/22 Rotary Christmas Luncheon

**ON-GOING PROJECT: MEALS ON WHEELS**

Covina Rotary has shown a strong commitment to MEALS ON WHEELS over the years. In the past, we have helped the program financially. More importantly, Covina Rotarians have personally delivered the MOV meals EVERY Tuesday for a number of years, rain or shine. This is largely due to the co-ordination efforts of Jon Teran and all the volunteers. Whether or not you have ever done MOW in the past, please consider helping out Jon when he puts out his next request for help so that Jon does not pull out all his hair. If that is not a good enough reason, then consider it to be your chance to keep someone from starving to death in their own home.

**Celebrating 100 years of Rotary Foundation.....**

Harry Borak encourages all Rotarians to squeeze the life out of polio regardless of where the virus strikes. It's one more way Rotarians are making a difference in the world.

**\*\*\*\*\*FIELD OF VALOR 2016\*\*\*\*\***

John Dixon, Bob Logan, and John Creamer spent months behind the scenes preparing the flags and addressing the lighting to insure that Field of Valor was breathtaking!
