

March 30, 2017 Issue #35 Editor: S. Brewski

THIS WEEK: BEER 101- THE BASICS

Brewery - a plant where beer is brewed by fermentation.

Brewpub - a combination brewery and restaurant; beer is brewed for consumption on the premises and served along with food.

Microbrewery - a small brewery; consumption of the product is mainly elsewhere.

Lush – someone who likes the brew a bit too much.

Arrow Lodge Brewing - This week's destination Rotary meeting.

Join **Linda Logan** and **Andy McIntyre**, along with the Beer Masters, this week while Covina Rotary explores the workings of Arrow Lodge Brewing.

MEMBERSHIP 201:

Bringing new members into our Club is very easy if you know the drill. First identify the potential member and bring them to a Rotary meeting. It could be Richard Sheehan, the Superintendent of Covina Valley Unified School District, or someone less famous, like Cherilyn Sarkisian (aka Cher):

Next, give the application to our Club President (Patricia) and Secretary (Tom Patronite). The Board discusses the application and the prospective member is “published” in the Wheel. Thereafter, anyone may discuss the pros and cons of such a new member with the Board and, it all goes well, **Richard Sheehan**, is officially invited to join our club. Cher, in this example, is not yet eligible because she is yet to attend one of our meetings.

Harry is asking that we add 10 new members for our 2016-2017 year. We are halfway there with Dr. Sheehan. So get out there and help Harry meet his 06-01-17 deadline.

Next month's Wheel Editor:

Tim Schneider has been thinking about everyone he has ever known and liked, in his own personal search for new club members. However, he will be putting membership development on the back burner when he takes on the role as the Wheel Editor for April.

Then fill out the application form provided by Harry Borak:
