

the wheel 
Covina Rotary Club - District 5300 - Chartered March 8, 1923

April 20, 2017 Issue #38 Editor: Tim Schneider

This week's meeting

Remember to flaunt your style, fashion sense, and good humor by wearing your favorite hat to this week's luncheon! As true experts of wearing many different hats, we are expecting the World's Greatest Rotarians to excel at this!

Presenting our speaker

This week - **Tracey Norton D.O. FAAFP** will present on the Family Medicine Residency Program at Citrus Valley Health Partners.

Next Week - April 27: **Fahed Bitar, MD** will speak with us about Transcatheter Aortic Valve Replacement (TAVR).

Let's make Emily Post proud

Listener etiquette: This is a friendly reminder that when speakers have the floor during our weekly luncheon, whispering to your neighbor, checking your cell phone, leaving during the talk, or throwing spitballs might be construed as rude behavior. Let's ensure we show kindness, attention, and appreciation to our speakers.

FYI... Now you know

In the old days, the process of making felt used to involve the use of mercury which is toxic, and prolonged exposure can cause damage to the nervous system, tremors and dementia. From that originates the phrase "Mad as a hatter". So glad we are Happy hatters.

Last week

If you didn't attend last week's luncheon, you missed it... the induction of **Fabiola Holguin**. Welcome, Fabiola!

Not only that, but you missed some fascinating stories about the early days of neonatal care in Southern California from **Dr. Gilbert Martin**. Thanks, Dr. Martin!

Bark & BBQ: Dogs, hotdogs and fun!

Don't miss your chance to meet and support the super dog who keeps us safe from the bad guys! See you Saturday!

Don't forget
