

THIS WEEK:

April Kelcy

Earthquake Solutions

Earthquake Dollars and Sense

When it comes to earthquake safety far too many people just don't know what they don't know. Unfortunately, there have been fatalities in California earthquakes that were entirely preventable. In some cases, merely having better knowledge would have driven wiser decisions and perhaps prevented tragedy. Being able to better analyze your situation during the planning phase can become far more critical in a real disaster than just knowing you need some supplies. April Kelcy will share true stories and situations, as well as some new developments, so that you will be better able to protect your life, your loved ones, and your financial future.

April is an award-winning emergency management consultant who helps clients to achieve intelligent and practical preparation for major disasters.

She is a consultant to the Earthquake Country Alliance and serves as a state-wide leader for the Great ShakeOut project that last year had 55 million participants globally. She provides services to FEMA, the Federal Executive Boards of San Francisco and Los Angeles, California Governor's Offices of Emergency Services, the U.S. Geological Survey, and a wide range of commercial and residential clients.

With over three decades of advocacy in this field, April's work has resulted in **actual saves** of lives, businesses and homes in past disasters.
